

An Amazing Opportunity for Unsigned Bands

Amazing Radio - the only radio station dedicated to exclusively playing unsigned and independent music - brings you **The Amazing Chart**.

The Amazing Chart is the first Top 40 Chart that mixes airplay and statistical information to derive a chart exclusively for unsigned artists, and is a powerful platform for emerging talent to share their music with the world.

This new Top 40 has the added credibility of being published online by music industry bible, **Music Week**, alongside other internationally respected charts.

Every great chart needs a great chart show to reveal the weekly winners and losers, and The Amazing Chart is no different. Sticking with scheduling tradition, **The Amazing Chart Show** hits the *Amazing Radio* airwaves at 5pm every Sunday, when Charlie Ashcroft counts down the week's Top 20 tracks and reveals some new "breakers and shakers" outside the Top 20.

Amazing Chart positions are based on a mixture of airplay on **Amazing Radio** and the popularity of tracks on Amazing's online music site **amazingtunes.com** - where users can download and interact with over 27,000 unsigned tracks. Any unsigned or independent artists can submit music to the database at www.amazingtunes.com and will automatically be eligible for The Amazing Chart.

John Williams, Director of Music at *Amazing Radio* said "This is the most important Top 40 Chart this century and is truly the people's chart. Music lovers searching for the 'next big thing' need look no further than **The Amazing Chart**"

As the definitive chart for unsigned and independent music The Amazing Chart will provide valuable exposure for undiscovered talent with the help of **Amazing Radio** and **amazingtunes.com**.
