"Jerky 2-bit dance pop for indie geeks..." - **NME**

Hamburg's **FUCK ART, LET'S DANCE!** release their debut album **Atlas** on **28th April 2014** via **Audiolith**. The album channels, youth, wonderment and discovery, about young hearts trading in security for the unknown - a life of possibilities and adventure - something we all yearn.

The band's name - **FUCK ART, LET'S DANCE!** - speaks for itself. Whilst listening to *Atlas* you can imagine club kids from Dalston, London to Williamsburg, New York dancing carefree in the darkest, coolest corners of some of the best underground clubs, music pulsing, the band's name emblazoned onto loose fitted vests, graffitied luminously across brick walls - **FUCK ART, LET'S DANCE!** have the capacity to start a movement.

Opening with title track 'Atlas', the band evoke the feeling of the joyous abandon of youth but **FALD** bring the intelligence of **Foals** whilst maintaining that edge. Progressing forward, a more electronic vibe seeps in with tracks like 'Home', channeling an early **Friendly Fires** sound. There's a wistfulness about *Atlas* though, something that **East India Youth** fans will definitely find appealing but they never slow the pace, they aim to bring you up and keep you there right until the very last track.

Although *Atlas* is the band's debut, they've been hard at work during their inception in 2009. **FALD** literally formed from a need to make people dance, tired of watching 'gig zombies' stand around at local live shows, they wanted to inspire people to move. Before they had even released a record, they played over 200 gigs earning a reputation for their upbeat, danceable performances. They soon found themselves flying across the Atlantic to **SXSW**, impressing audiences with their international sound, which led to their 2012 EP *Lovers Arcade*.

With *Atlas*, this addictive four-piece will make you dance, sweat and smile - they embody both the fun *and* introspective elements of youth and have translated them into thirteen perfect tracks.

Atlas is released on **28th April 2014** via **Audiolith**.
