*"...absolutely mesmerising..."* - **Impose**

Singer-songwriter **Freja Frances** returns with another poignant new single, ***Papercuts***, out on **2nd February 2018** via **ShimmerSun Music**.

Freja explains "the single is about a feeling of self-inflicted isolation and a distance from reality, told through fairytale themes." *Papercuts* yet again demonstrates Freja's unique ability to create stunningly minimalist music that is both emotive and relatable. Accompanied by a captivating piano-led melody and a twinkle of a cello, Freja's authentic lead vocal is able to soar. The single will also include a remix by **Alex Hughes**, adding another layer of ethereal soundscapes, sounding akin to the likes of **Låpsley**.

Since the release of her debut EP *Ghosts* in 2015, Freja has received praise from various publications including **For Folk's Sake**, **Gigslutz** and **Impose** to name a few. She has also performed twice at **Sofar Sounds London** and supported **Dodgy** at **Knutsford Music Festival** last summer.

***Papercuts*** is out on **2nd February 2018** via **ShimmerSun Music**.
