Radio 1 DJ **Rob da Bank's** favourites and **Bestival** sensations **Fresh Legs** follow-up on an amazing summer of action-packed gigging, writing and recording with their debut release for **Sotones Records.**
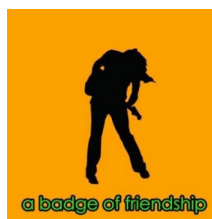

Southampton gig and club-goers have known that Fresh Legs were something special since early 2008, when the energetic four-piece, fronted by live-wire Ella blew audiences away supporting fellow indie-pop gems **Thomas Tantrum**. Championed by TT, a support slot for **Fight Like Apes** followed.

Others began to take notice, and their recording debut – *Chess* was released in early 2009 on **Yada Yada**. The record attracted national attention in the form of airplay on **BBC 6Music** and **Radio 1**. Rob da Bank took the band to his heart, and repeat plays and a personal the aforementioned Bestival invitation followed.

Leaping at the opportunity to work with up-and-coming bookers **The Mixed Tape Agency** (Die!Die!Die!; Situationists), the band soon found themselves plunged into a hectic series of summer gigs including a prime slot on the main stage at **Southsea Fest**.

Fresh Legs' Julian EP is fun, unabashed indie goodness. You can literally feel Ella's passion and energy come across with each little explosive track. Step aside music lovers – Fresh Legs have arrived!
