- Notion Magazine

Hundreds return with their second studio album ***Aftermath*** on **19th May 2014**, released via Berlin based label **Sinnbus**.

It's been two years since their self-titled debut album was released and with *Aftermath* the band return stronger than ever with the same, if not more, conviction, passion and excitement. Only a band like Hundreds could return with the same vigour whilst maintaining that enchanting, cool elegance that has become their signature sound and attitude.

Originally from Hamburg, sibling duo **Eva** and **Philip Milner** (aka **Hundreds**) have been working on the material for their new album for the last 18 months. The album has captured the dynamic of their creative process, filled with grand emotions and hypnotic arcs of suspense, followed by quieter moments of introspection. On the other side of this process of creation they have still held on to their Electro roots, but have now discovered a warmer, and more song-oriented sound that's more organic than their previous offerings.

Aftermath is the story of opening up and letting go, growing older, but also of refreshing naivety and unconditional utopia. They're sure to enchant fans both old and new with this stunning collection of tracks that have been years in the making.

Aftermath is released **19th May 2014** via **Sinnbus**
