

SINGLE PRESS RELEASE

Mickey 9's *Superman*

Release Date: 2nd December 2016

Title: Superman

Label: Good Guy Records

For Fans of... Chromeo, Miami Horror, The Rapture, Primal Scream

Glaswegian four-piece **Mickey 9's** are gearing up to bring their eccentric sound and visual style to a UK wide audience with the release of their latest single **Superman**, out on **2nd December 2016** via **Good Guy Records**.

It's abundantly clear on *Superman*, as well as past releases *Ammunition* and *Psycho Control*, that Mickey 9's are gleefully stretching the limit of what a modern pop band is expected to be. Taking in elements of 90's era acid house, german techno, funk, pop, new-wave and indie-pop, the band playfully experiment with both performance and sonic elements of the creative process, producing music that is as much **Primal Scream** as it is **Gang of Four**.

The opening notes to *Superman* are akin to **Daft Punk** channeling the 80's funk-rock stylings of **INXS's Suicidal Blonde**; **St. Cool's** (vocals) incisive vocals cut through the funkadelic style guitar pieces, snapping synth-like drum beats and grooving bass lines. A refreshing take on modern dance music, Mickey 9's have concocted a contemporary dance-funk sound in the realms of **Chromeo** and **Dam-Funk**, combined seamlessly with grittier electro-rock segments associated with acts such as **The Rapture**.

Comprised of St. Cool, **Ants** (guitar), **Dave 'One Man Rave'** (bass) and **Ross Ross Ross** (drums), Mickey 9's formed in 2007 and have gone onto be a leading member of the Scottish festival circuit making appearances at **The Barrowlands** as well as supporting prominent bands such as **Sugarhill Gang**. The release of *Superman* will be the first track taken from the bands album *Galactic Radio* which they aim to release in 2017.

Superman by **Mickey 9's** is released on **2nd December 2016** via **Good Guy Records**.
