Words (Can Tear Down Walls)

Band: Nûrnbear

Single: Words (Can Tear Down Walls)

Label: We Are Suburban

Release Date: 16th February 2018

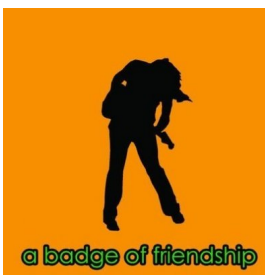

For Fans of... Liss, OUTLYA, MØ

Following acclaim for their last release, *Isolation*, Danish alternative-pop band **Nûrnbear** are back to grace our ears with new single ***Words (Can Tear Down Walls)***, out on **16th February 2018** via **We Are Suburban**.

Blending politically charged lyrics with an upbeat, flamboyant pop sensibility, *Words (Can Tear Down Walls)* oozes glitchy beats alongside smooth, catchy hooks. Combining the impassioned, soaring vocals of charismatic frontman **Emil Wahlberg** with a playful energy, a cascading soundscape is created, suitable for dance-floors and bedrooms alike. As weighty subject matter is juxtaposed with blissful vibes; it's another instantly infectious slice of electro-fused pop from the Danish band.

Having been associated with known Danish acts such as **The Chairman** and **The Awesome Welles**, Emil Wahlberg formed Nûrnbear in 2016. With the addition of **Christian Tranberg** (beats), **Mads Siggaard** (synthesiser) and **Rune Christensen** (bass) Nûrnbear began to write energetically playful tracks that would begin to resonate with a new generation of music lovers. Now, following the success of *Isolation*, Nûrnbear look set to conquer the UK and beyond with this catchy new single.

Words (Can Tear Down Walls) is out on **16th February 2018** via **We Are Suburban**.
