OAKLND
Hold On

Band: OAKLND

Single: Hold On

Distributor: AWAL

Release Date: 3rd November 2017

For Fans of... LANY, Astronomy, Thomston

Multi-instrumentalist **OAKLND** is delighted to unveil his breezy, California-inspired pop music through the release of debut single *Hold On*, out on **3rd November 2017** via **AWAL**.

Combining elements of the dreamy west coast pop produced by acts like **LANY** with the chillwave, R&B sensibilities of acts such as **Astronomy** and **Thomston**, *Hold On* sees OAKLND craft a mellow electro-pop sound meshed with personal, biographical lyrical content, that is as rich in texture as it is in atmosphere.

Having played in a touring band in Scotland, **Colin Mckillop** decided to pursue a solo project on the back of a trip to Los Angeles; a trip that helped to consolidate the kind of dream-pop sound we can hear oozing from *Hold On*. Turning a small corner of his bedroom into a makeshift studio, OAKLND has honed his style over the past twelve months, leading him down a creative path that he could truly call his own and, ultimately, to the creation of his stylish debut single *Hold On*.

Hold On by **OAKLND** is out in **3rd November 2017** via **AWAL**.
