*“TFAI make an urgent and exciting new noise. One to take notice of.” – The List*

The Fire And I's second album **Double Kamikaze** is a blur of hectic noise, rollocking, high-octane riffs and good old fashioned rock 'n' roll released via **CarCrash Records** on **10th March 2014**. They are one of the most intriguing alt-rock two-piece outfits to emerge from Scotland right now, take heed - they are ones to watch.

The Scottish based two piece, comprised of bassist **Gordon Love** and drummer **Hooligan Sadikson**, were originally four. However, rather than finding new members, the pair decided to keep their minimalist bass / drums set-up, sharing vocals. Their acclaimed live performances have become something of legend on the live circuit - adrenaline-fuelled, no holds barred spectacles, their tracks burst to life on stage.

This high-octane noise is felt throughout the album. Opener 'Devil Damned Thoughts' is purely instrumental, showcasing the band's love of the riff; there are hints of **CKY** meets **That Fucking Tank** - an exciting start and you can almost feel the sweat pouring from the speakers. Title track 'Double Kamikaze' could have easily have made **Queens of the Stone Age's** 1998 self-titled debut - unapologetic dirty rock. However, When The Fire And I calm the pace, their softer underbelly also has great potential - there are real shades of light on 'Coming Loose' akin to early **Biffy Clyro's** quieter moments. Nevertheless, they don't stay quiet for long, the album is pure heart-pounding alt-rock.

Since their debut album *Stampede Finale*, the band have been honing their sound, with their aforementioned live performances being their ace in the hole. As well as sharing a stage with Biffy Clyro, they've also headlined the **T in the Park** T-Break stage but now that they're ready to unveil *Double Kamikaze*, they plan to tour the UK in March before heading off to Europe.

**Double Kamikaze** will be released on CarCrash Records on 10th March 2014.
