“...soaring, anthemic punk-rock.” - **DIY**

“...a snorting, snarling, four piece rock explosion...” - **Clash**

United Fruit's second album ***Eternal Return***, out **13th May 2016**, is a heart-pounding blast of energy, hope and passion. Featuring some of their most accomplished songs to date, each track unfurls and bursts into a cacophony of riffs, high soaring vocals and hectic beats that will leave you exhilarated by the end.

The Glasgow based four-piece have taken their time with *Eternal Return*, teasing fans with single ***Open Your Eyes*** and their ***Nightmare Recovery*** EP, which features three tracks on *Eternal Return* - 'Ghost Inside Your Head', 'Nightmare Recovery' and 'Cause And Effect'. Press were quick to pick up on the band's thrilling punk rock sound with **The 405** noting that, if played loud enough, 'Nightmare Recovery' would 'probably wipe all that shit off your face'. **Stereogum** also featured 'Ghost Inside Your Head' after the band played a showcase for the critically acclaimed site at **SXSW** plus **DIY**, **Drowned in Sound**, **Clash**, and **The Skinny** have been strong supporters of the band.

More so than ever before, **Iskandar Stewart** (vox, guitar), **Stuart Galbraith** (guitar, vox), **Marco Panagopoulos** (bass) and **Dean Inglis** (drums) have brought together their love of discordant, dissonant chords and melodies then destroyed the rule book and created their own unique sound upon its smouldering ashes. The result is *Eternal Return* - an eleven song beast that combines angular alt rock and pop, drenched in love, sweat and optimism.

From the uplifting riffs and driving beats, which channel the **Smashing Pumpkins** filtered through an early **Rival Schools** lens, on 'Where The Sun Beats Down' to Iskandar's signature anthemic rock vocals on 'Golden Days', *Eternal Return* feels like an exciting journey for the band and one that only scratches the surface of what's to come.

Eternal Return is out on **13th May 2016**.
