Belle Mt. (pronounced 'Belle Mont') are ready to pull at your heartstrings with the release of their enigmatic debut single **Hollow**, out on **8th September 2017** via **LV Music**.

A dark tale of a woman unable to let love in, *Hollow* flows with sweeping strings, delicate melodies and lead singer **Matt Belmont**'s soaring vocals. Exuding a cinematic, evocative power and rich layers, it's an epic ballad with lyrics that echo the emotive storytelling charm of **Leonard Cohen**. Of the track and its protagonist, Belle Mt. explain: "There's the impression of a fork in the road for this woman and ultimately she takes the tragic path, as she can't accept the intimacy or love that this man is committed to giving. *Hollow* is as much about her loneliness as his eventual emptiness..."

The concept of Belle Mt. was created during a period in which lead singer Matt Belmont withdrew from public performances. During this time, he dedicated his time to introspective songwriting development, creating the basis of a sound which would eventually find its way into the hands of Nashville-based, **Grammy Award** winning producer **Femke Weidema**. The musical connection between the pair has resulted in a unique writing and production style, evident in the layered ambience and depth of this ethereal new single.

Now, having packed out a Nashville industry showcase at **The Basement**, as well as playing a **Sofar Sounds** set at London's **Amnesty International HQ** this summer, Belle Mt. are ready to grace your ears with the rousing splendour of *Hollow*.

Hollow s out on **8th September 2017** via **LV Music**.
