Nitkowski are Dan, Alex and Ed. They make beautifully complex, wonderfully austere music. Imagine the visceral energy of **Rodan**, the intimate melodic moments of **The Shipping News** and the catchy jerkiness of **Shellac** and you're almost there... The band has only been playing live shows since April 2008 but have impressed everyone lucky enough to witness this three-man marvel.

Now the band release debut album *Chauffeurs* on Function Records on 7th September 2009. *Chauffeurs* is a perfect example of Nitkowski's ability to write mesmerising 3-minute wonders and fast-paced to rhythmically complex 6-minute masterpieces. This is a band with many strings to their bow and this album is guaranteed to blow your head away.
