“...screeching ferocity and infectious melodies...” - **NYLON**

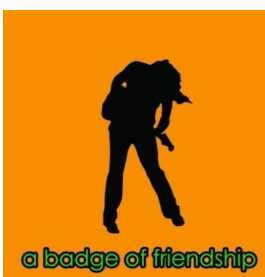

London's self-proclaimed 'Feminist Punk Witches' **Dream Nails** are ready follow the fury of last year's *Deep Heat* with brand new single **Tourist**, out **13th October 2017**.

Tourist is a powerful song about emotionally predatory men who are drawn to women when they're vulnerable. Front woman **Janey Starling** explains "it's about men who present themselves as a hero but all they really want to do is fetishise sad girls, make them emotionally attached and then abuse that power. We can smell those guys a mile away and they're creepy."

At times like this, it's more important than ever to have politically-charged bands set on combining activism with fantastic music. Dream Nails succeed in doing just that. Racing with infectious riffs, jangly melodies and the seething passion of Janey's distinctive vocals, *Tourist* oozes a sparkling punk-force and intense contagious energy akin to the likes of Riot Grrrl pioneers **Bikini Kill**.

Having already built a reputation in London and across Europe for their riotous live sets, Dream Nails have also drawn in crowds headlining the Sisterhood stage at Glastonbury, as well as supporting bands such as **Cherry Glazerr**, **Bleached** and **Petrol Girls**. Now, with support from well-regarded sites including **Dazed**, **Nylon** and **Refinery29** to name a few, Dream Nails hope to continue to inspire and empower with their latest impassioned release.

Tourist is out on **13th October 2017**. Dream Nails' debut EP **Dare To Care** is out on **27th October 2017**.
