Centipede

Band: nav/attack

Title: Centipede

Release Date: 8th September 2017

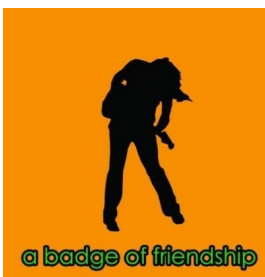

For Fans Of: Lambchop, Kraftwerk, Boards Of Canada

LA based glitch-pop outfit **nav/attack** follows last year's EP *Errors* with dystopian themed single ***Centipede***, released on **8th September 2017** via **Sparse Symmetrics**.

Centipede is set in a post-apocalyptic future, where breathing outside is illegal and everyone is addicted to narcotics-infused candy. A hypnotic, whirring cacophony, the track races with the glitchy speed of retro arcade games, building tension that opens out into a cinematic soundscape.

Formed as a solo project whilst **Andrew Lynch** was on a promotional trip to Europe with previous band **The Goldberg Sisters**, nav/attack have received acclaim from the likes of **The Hollywood Reporter**, **Billboard**, **KCRW** and **LA Weekly** for last year's *Errors* EP. Now, with the addition of drummer **Jason Echeverría**, they hope to draw UK listeners in with their surreal other-worldly creations.

Centipede is out **8th September 2017** via **Sparse Symmetrics**.
